

ADDENDUM #6
RFQ 24-001

Bowden Street Tank Painting and Inspection

This addendum is being issued to address questions submitted on RFQ 24-001

Q1. How many days for Substantial/Final Completion and the Liquidated Damages for the RFQ 24-001 Elevated Water Tank Painting & Inspection Project.

A1. Project Completion Deadline is June 30, 2024, and there will be no liquidated damages applicable. The times for Substantial Completion and readiness for final payment are to be set forth by Bidder in the Bid and will be entered into the Agreement. The times will be taken into consideration by Owner during evaluation of the Bids, and it will be necessary for the apparent Successful Bidder to satisfy Owner that it will be able to achieve Substantial Completion and be ready for final payment within the times designated in the Bid.

Q2. What are the total calendar days allowed for this project and if any liquidated damages are specified?

A2. Project Completion Deadline is June 30, 2024, and there will be no liquidated damages applicable. The times for Substantial Completion and readiness for final payment are to be set forth by Bidder in the Bid and will be entered into the Agreement. The times will be taken into consideration by Owner during evaluation of the Bids, and it will be necessary for the apparent Successful Bidder to satisfy Owner that it will be able to achieve Substantial Completion and be ready for final payment within the times designated in the Bid.

Q3. Please confirm that BOTH exterior preparation scopes should be bid separately and included in our proposal.

A3. We would like to see the pricing for both. Call it Option 1 and Option 2 or Exterior Overcoat Option and Exterior Full Blast option, but the bidder should do what that think will last for 7-10 years.

This addendum should be signed and returned with your proposal. Failure to do so may result in the proposal being non-responsive.
