

ADDENDUM #7
RFQ 24-001

Bowden Street Tank Painting and Inspection

This addendum is being issued to address questions submitted on RFQ 24-001

Q1. We will be bidding on the city's water tank renovation project next week and would like to know if any permits or business licenses would be required?

A2. A permit will only be needed if there is electrical work being done. A business license depends on a couple things. First, if you have a Georgia license, we will not require a local license. If you have an out of state license, then you will need to get another one from us. Depending on when the work will be done, the price can vary. If you plan to do it before the year's end, we have a prorated price of \$75. If work begin or carry over to 2024, the full price of \$125 will be required.

This addendum should be signed and returned with your proposal. Failure to do so may result in the proposal being non-responsive.
